Dear Sir / Madam,

We are delighted to submit our expression of interest to participate in the New Models of Care Programme. We believe we are a genuinely distinctive and strong site and that by working closely with you will find an exciting partner that is truly in the vanguard nationally.

We are a partnership that brings:

- the fullest scope of population health, across both mental and physical health, and across all sectors of NHS and social care for two densely populated and vibrantly diverse urban boroughs that are experiencing wide inequalities and demographic change;
- a track record of intensive investment of energy and of our own financial resources in the hard and reflective processes of relationship building, leadership development and joint learning across a wide range of partners, including local citizens;
- access, through King's Health Partners AHSC, to dedicated change management and evaluation capacity as well as to novel workforce development programmes. Drawing on these resources, and that of our AHSN and LETB, we will be well placed throughout 2015/16 to share evidence-based insights from our work and to learn from other Vanguard sites
- a partnership which has reached the point where we have identified specific barriers to transformation, in terms of the complex and technical tasks that can only really be addressed within those systems that have already laid the considerable groundwork to tackle them. We now need expertise and partnership with national bodies to test new models and refine regulatory frameworks. By working with us you will be able to explore and resolve these issues within a large scale urban environment that is committed to securing change for the benefit of local people

We very much look forward to hearing from you.

Regards

Sir Ron Kerr (CEO, Guy's and St Thomas' NHS Foundation Trust)
Dr Adrian McLachlan (Chair, NHS Lambeth Clinical Commissioning Group)
Helen Charlesworth-May (Strategic Director - Commissioning, Lambeth Council)

Southwark and Lambeth Integrated Care Sponsor Board Co-Chairs
