

# Transfer of Care Bundle

- 1 Care Home transfer to hospital
- 2 Communication
- 3 Coordinate MDT planning
- 4 Checklist for discharge
- 5 Call to follow up

## Why use the transfer of care bundle

- ✓ The bundle sets out best practice for transfers of care between care homes and hospital
- ✓ Using the bundle will enable improved transfers of care and experience for patients / residents

The bundle has been standardised across GSTT and KCH, however there are small differences in the forms. Therefore, please ensure you use the right form when discharging a patient from your hospital.

## What documents are included in the transfer of care bundle:

- Discharge Bundle
- Discharge Bundle Guidance
- Discharge Checklist from Hospital to Care Homes
- Discharge Checklist from Hospital to Care Homes Guidance
- Transfer Form – ED to Care Home
- Transfer of Care from Care Home to Hospital
